SUMMARY

A proactive seeker of information with both a creative and analytic mind focused on learning HCI. Through a variety of traditional academic as well as self-learning methods, internships, and project work, I have strengthened the skills necessary to succeed as an information and design professional. Skilled debater and communicator who enjoys team leadership and improvement. I also paint, practice calligraphy, and do DIY projects in my spare time.

EDUCATION

Northeastern University (China)

Bachelor of Science, Software Engineering, Current Standing 88.49%

Shenyang, China

Expected Jun 2023

Relevant Coursework: Practice for HCI Programming, Software Engineering Approach to HCI, Software Architecture and Design Patterns, Software Innovation Approaches and Case Studies, Software Requirements Analysis and Design

University of California, Berkeley

Berkeley Global Access Program
